1. Commissioner Wadlington asked how the Library advertises programs and Mr. Racelis responded that the Library primarily uses the web page and social media accounts and if the Commissioners have any other suggestions, to please let him know.
2. Commissioner Burchartz asked when the Library would go out to bid on the Building Forward grant and Mr. Racelis replied that the award would come out in the spring or summer and the expected timeline to go out to bid would be the fall. He can provide more information at the next meeting.
3. Chair LaManna asked where in the Garden would the expansion be and Mr. Racelis responded that it would be where the pergola is currently and a little beyond. There would still be intact outdoor space as the expansion wouldn't take up all of the Garden space.

### **RECOMMENDATION:**

### **SUMMARY:**

The Library's Teen Advisory Council will be presenting a Summer Reading Challenge update at the upcoming June 21 City Council meeting.

On Monday, April 9, the Library hosted a special Touch-a-Truck storytime. The event was a great success with 465 in attendance that featured special vehicles and trucks from Murrieta Fire & Rescue, Waste Management, Murrieta Police Department and Murrieta Public Works.

The Zip Books program has ended and the Library has purchased over \$15,000 worth of materials through this grant-funded program from the California State Library. Over 800 new books were purchased, shipped directly to the patron's home and then added to the Library's collection.

The Library received approval for the Library Gaming Project (Pilot) through the Game Manufacturers Association. This opportunity will provide the Library with tabletop board games to add to the collection for circulation as well as gaming events for adults and teens in partnership with local game stores and tabletop game publishers.

The California State Library intends to award the Park Pass Grant to the Murrieta Public Library for a total of \$3,500 to fund the creation of nature-themed Park Pass Kits that can be checked out along with the State Park Passes available for checkout at the Library. The themes include Hiking, Flora and Fauna, Night Sky, and Biodiversity. This grant will be brought to the City Council at an upcoming meeting to accept the grant and authorize the establishment of revenue and expenditures of the grant funds.

Over the past few months, the Library has received several comments from Library patrons on their disapproval of certain materials in the Library's collection. While there has not been an official challenge to any particular item through the submission of a Request for Reconsideration of Material Form, the Library Advisory Commission should remain aware of the Materials Selection Policy and the procedures regarding material challenges. Both the Form and the Policy are attached. The ultimate decision regarding material challenges resides with the Library Advisory Commission.

## MATERIALS SELECTION POLICY

*Mission Statement: As a team with civic heart, the Murrieta Public Library is dedicated to providing a vibrant environment with open access to exceptional services, collections, and programs while continuing to promote the joy of reading for an empowered and successful community.*

### Purpose:

The Murrieta Public Library offers a wide range of free library services for all City of Murrieta residents as well as for the surrounding region. The core of these services is the collection of print and non-print materials, which must fulfill the educational, cultural, informational and recreational needs of all segments of a diverse and educated community. While this is a dynamic and ever-evolving process, the availability of a well-rounded collection will provide access to a variety of thoughts, perspectives and concrete information from which an individual can continually improve one's life; eventually affecting the entire community in a positive and productive manner.

The purpose of the Murrieta Public Library Materials Selection Policy is to provide guidelines that are nationally practiced within the profession, methodical, and clear for the professional staff in pursuing the goal of providing a balanced collection.

Such Policy cannot be definitive for all time. As the City grows and the needs of the community change, the Policy will be reviewed and revised by the staff and the Library Advisory Commission. Each revision should address the continuing changes in subjects, formats, education and cultural needs of the Murrieta residents.

### Objectives:

The primary objectives of the Materials Selection Policy shall be to collect materials that are of permanent value as well as those that are of contemporary significance. The Library will always be guided by a sense of responsibility to the past, present, and future in adding materials which will enrich the collection and maintain an overall balance. The Library also recognizes an immediate duty to make available materials for enlightenment and recreation, even though such materials may not have enduring interest or value.

By adopting this Policy, the Murrieta Public Library affirms its belief in the principals of the Library Bill of Rights and Intellectual Freedom as adopted by the American Library Association (see Attachment #1). Further, the Library acknowledges its responsibility to the community it serves in providing library materials which present all points of view and its obligation to defend its selections against arbitrary removal or re-categorization from and/or within the collection, respectively.

Materials Selection Policy

## Responsibility for Materials Selection

Final responsibility for materials selection lies with the Director of Library Services who works within the City Council and Library goals and objectives as supported by the Library Advisory Commission. However, the Library Director will delegate authority to the professional librarians to use and appropriately interpret the Materials Selection Policy when making day-to-day collection selections. Suggestions from the community as well as from other library staff will be received and reviewed by the Librarians with final decisions being made according to the guidelines of this Policy. Unusual selection requests will be referred to the Library Director for a final decision.

All Librarians selecting materials for the collection will be expected to keep the objectives of the Policy in mind and to apply their professional knowledge and experience in making decisions. On no occasion should personal prejudice or bias influence the selection or non-selection of library materials. The inclusion of material within the collection does not connote Library or City approval/advocacy of the ideas, philosophies or precepts of the information provided.

## Use of the Library's Collection

The Library recognizes that many library materials are controversial in nature and that any given item may offend some patrons. Selections will be made solely on the merits of the work in relation to the building of the collection and to serving the interests of the readers and not on the basis of any anticipated approval or disapproval.

Community members who wish to protest the suitability of a title in the collection would first speak to the Supervising Librarian. If the explanation from the Librarian is not sufficient, the patron would then submit his/her protest in writing to the Library Director by completing a Request for Re-evaluation of Material form (Attachment #2). The Library Director will then determine whether or not the material in question violates any principles of the current Materials Selection Policy. Further dissatisfaction with the Director's decision will then be forwarded to the Library Advisory Commission for their consideration. An ultimate decision, if the patron is still dissatisfied with the response to their complaint, resides with the Library Board. In each situation, it is the patron's responsibility to submit their complaint in writing, which can be given to the Library Director for forwarding to the appropriate entity. The patron must follow the protocol as outlined in this Policy.

Library materials will not be marked or identified to show approval or disapproval of the contents and no cataloged materials will be sequestered, except for the express purpose of protecting them from injury or theft (e.g. historical documents, photos, books, etc.).

Responsibility for the reading and viewing of materials rests with the child's parents or legal guardian. The Murrieta Public Library does not act in *loco parentis* and therefore, it is not the responsibility or function of the Librarians to police the use of materials or prevent their use by children, teens, or young adults. Selection of materials will not be inhibited by the possibility that children may inadvertently or otherwise come into the possession of materials which their parents consider inappropriate.

### Authority of the Policy

This Policy, as accepted, supersedes all previous policies in force. Collection items selected in accordance with the criteria as established by this Policy shall be deemed suitable for inclusion in the Murrieta Public Library collection and shall not be removed except as already described.

### Dispensation of the Policy

A copy of this Policy shall be available for public perusal upon request at all Murrieta Library Service Desks.

- h. Materials of highly specialized topics or of only occasional demand shall be met through the Interlibrary Loan process when possible.
- i. Multiple copies of books used for class assignments will not be purchased.

### 3. Selection Guidelines for Children's and Teen Materials

The selection of materials for children and teens carries a tremendous responsibility of providing materials that are appropriate, yet varied in scope and depth, and have integrity and foundation. The goal is to select materials on a practical basis, yet maintain the high standard of selection in accordance with the American Library Association and the California Library Association's philosophies of providing library services to young people.

#### Objectives

The Murrieta Public Library's children and teen collection consists of books and materials in other formats for the segment of the community who are infants through 13 years of age. Abilities, reading levels, and the demographic profiles of Murrieta and surrounding area are utilized when selecting materials. Although school libraries have primary responsibility for providing curriculum support materials to their students, the library endeavors to provide the supplementary reading and reference materials to assist with school related projects and subjects. Further, the Library will collaborate with the Murrieta Valley Unified School District to maintain a reference collection of District textbooks for all grades at the District's expense. Generalized and subject appropriate materials are also provided for parents and teachers who work with youth.

Juvenile materials are selected to reflect the needs of the Murrieta youth by providing a balanced collection. Library staff strives to be aware of changing patterns in learning trends, technology,

sciences, and other methodologies of contemporary significance to provide accurate, up-to-date information in all fields of knowledge of interest to children and teens.

The Library also recognizes an immediate duty to make materials in all formats available for enlightenment and recreation, even though such materials may not have enduring interest or value. Responsibility for the reading and viewing of materials rests with the child's parents or legal guardian. The Murrieta Public Library does not act in *loco parentis* and therefore, it is not the responsibility or function of the Librarians to police the use of materials or prevent their use by children, teens, or young adults. Likewise, selection of materials will not be inhibited by the possibility that children may inadvertently or otherwise come into the possession of materials which their parents consider inappropriate.
